MEMORANDUM FOR: Chairman, Fine Arts Commission

Jim:

I have added only a couple "X's" to Tom's "V's". I'm not sure what the criteria should be -- if this should be done at all. If there were not a personal reason for such an individual presentation I question the value/meaning of a collection. Much as I respect some of the people and cherish others -- it is the institution with which I identify. As a consequence, institutional memorabilia appeal to me. Pictures of the building, the seal, etc. --

Hence, I would not object should it be decided to present, to those who wanted one, a picture of the building upon their retirement.
